

WILSHIRE/LA CIENEGA SUBWAY STATION CONSTRUCTION

March 6, 2015

Dear Beverly Hills Community Member:

The City of Beverly Hills will host two Community Meetings to provide information and receive public input regarding construction activities related to the Wilshire/La Cienega subway station construction. The same information will be presented at each meeting which will be held at the La Cienega Community Center, 8400 Gregory Way, Beverly Hills (at the southeast corner of La Cienega Boulevard and Gregory Way).

**Monday, March 16, 2015, 6:30 p.m. to 8:00 p.m., and
Thursday, March 26, 2015, noon to 1:30**

Metro has begun the construction work to relocate the utilities in preparation for construction of the Wilshire/La Cienega Station which is expected to begin in 2017-18. City staff will provide an overview of how the La Cienega Station will be constructed. The community is encouraged to attend to learn about what to expect during construction and to provide input on permit conditions related to construction work hours/days, traffic, parking, and utility service. In the near future, the Beverly Hills City Council will review a potential agreement between the City and Metro to coordinate construction activities for the Wilshire/La Cienega station. As part of this review, the City Council would like to hear feedback and comments from the community. City of Beverly Hills staff will be available at the meetings to answer questions and record resident comments.

Free, two-hour parking is available at the La Cienega Tennis Center, located across the street from the Community Center at 325 S. La Cienega Boulevard. Limited street parking is available around La Cienega Park. Please read all street signs carefully.

Below is contact information to provide comments directly to the City of Beverly Hills.
